

DIME TIME

Get out of debt, one dime at a time.

Tim Carlisle · Founder & CEO

AUTOMATED DEBT REDUCTION THROUGH EVERYDAY SPENDING

THE PROBLEM

Americans Are Drowning in Debt

\$18.8T

U.S. HOUSEHOLD DEBT

- \$1.25T of it is credit-card debt — the segment Dime Time attacks first
- People intend to pay down debt — but don't follow through
- Manual extra payments require discipline most users don't maintain
- Financial stress is rising across all generations

WHY NOW

91%

of U.S. adults own a smartphone

Plaid, ACH rails and mobile banking now make fully automated debt repayment possible.

Sources: Federal Reserve Bank of New York, Household Debt & Credit Report Q1 2026 (released May 2026) · Pew Research Center, Mobile Fact Sheet (2025)

THE SOLUTION

Automated Debt Reduction

- Every purchase is rounded up automatically
- Users control how their spare change is allocated
- Round-ups accumulate, then fund user-authorized ACH debt payments
- No willpower required — it works quietly in the background

Round-ups are batched and transferred on a schedule the user approves — money does not move on every individual purchase.

THE BREAKTHROUGH

Dynamic Allocation Engine

Automated allocation from every transaction.

ROUND-UP EXAMPLE

\$0.37

Debt Repayment

primary debt payoff

80%

LIVE IN APP

Bitcoin (Coinbase)

long-term wealth — not yet available to users

20%

PLANNED

- Real-time allocation tracking
- User-controlled split
- Payments execute over ACH rails

Patent-pending allocation workflow · Real transfers roll out with public bank linking.

Market Opportunity, Built Bottom-Up

MARKET CONTEXT

\$18.8T

U.S. household debt

\$1.25T

credit-card balances — our first target

Context for the size of the problem — not our revenue model.

SUBSCRIPTION REVENUE AT \$2.99 / MONTH

1,400

paying subscribers

\$50,232 ARR

5,600

paying subscribers

\$200,928 ARR

25,000

paying subscribers

\$897,000 ARR

Subscriber counts are illustrative milestones — targets, not forecasts. ARR = subscribers × \$2.99 × 12.

Simple, Scalable Revenue Model

CORE

BUILT · FEATURE-GATED

\$2.99

per month

- Round-up automation
- Debt-first allocation
- Progress tracking & insights

PRO

PLANNED

\$3.99

per month

- Enhanced allocation controls
- Advanced analytics
- Deeper automation

PREMIUM

PLANNED

\$4.99

per month

- Faster transfer options
- Multiple funding accounts
- Priority routing

Core launches with the public rollout; higher tiers add speed, flexibility and multiple accounts as usage deepens.

Subscription model drives predictable recurring revenue.

A Capability Gap in the Market

	DIME TIME	ROUND-UP APPS	DEBT APPS	BUDGETING APPS
Purchase round-ups	Yes	Often	Limited	Limited
Automated debt payments	Yes	Rare	Varies	No
User-controlled allocation	Yes	Varies	Limited	No
Real ACH execution	Yes	Varies	Varies	No
Debt-first positioning	Yes	No	Yes	No

Dime Time combines automated round-ups, debt-first allocation and real ACH execution in one product.

Categories: round-up savings apps, debt-paydown apps, budgeting and financial-wellness apps.

Built to Be Difficult to Replicate

- Patent-pending dynamic allocation workflow (USPTO provisional filed)
- Production ACH infrastructure — real bank-to-bank loop already proven
- Compliance and partner-approval track record with regulated providers
- Repayment-behavior data advantage as the user base grows
- Debt-first brand, user trust and future distribution partnerships

INFRASTRUCTURE STACK

PLAID

Bank connections & verification — production access

STRIPE

ACH rails; Financial Connections under review

MERCURY

Business banking & treasury

COINBASE

Crypto execution — planned

Proprietary workflow design + production financial infrastructure + partner approvals + a debt-first consumer brand.

Focused Launch. Measurable Growth.

WHO WE SERVE FIRST

Mobile-first consumers carrying credit-card debt who want to make extra payments but struggle with consistency.

LAUNCH SEQUENCE

1. Activate public bank linking
2. Founder-led launch communications
3. Acquire a controlled first cohort
4. Measure activation, retention, ACH volume, conversion
5. Concentrate spend on channels that prove efficient

INITIAL CHANNELS

- Founder-led LinkedIn and earned media
- Veteran and military communities
- Financial-wellness creators
- University and young-professional communities
- Employer financial-wellness partnerships
- Referral incentives once retention is validated

No paid-spend assumptions — channels are validated before scaling. All growth figures will be reported, not projected.

TRACTION

Live App. Real Money Moved.

STATUS

**Live on the Apple
App Store — v1.0.5
approved July 2026**

MONEY LOOP

**\$1.00 ACH via Stripe;
\$0.99 payout in Mercury —
proven bank-to-bank**

PIPELINE

**Google Play, bank linking
& debt import awaiting
partner approvals**

USERS

**Public launch

No user metrics are reported until public launch — nothing on this slide is estimated.

Focused on Execution

Tim Carlisle

FOUNDER & CEO

- U.S. Navy veteran
- MBA — Management Information Systems
- Designed, built and shipped Dime Time end-to-end
- Integrated Plaid, Stripe ACH and Mercury (Coinbase planned)

Solo founder who designed, built and launched a production fintech application with working ACH infrastructure.

THE RAISE

\$150K to Launch and Prove Traction

RAISING

\$150,000

INSTRUMENT

Post-money SAFE

EST. RUNWAY

~12 months

USE OF FUNDS

35% Marketing & user acquisition

30% Founder runway

25% Engineering & contractor support

10% Compliance, infra & operations

MILESTONES

- Launch publicly on iOS and Android
- Prove repeatable customer acquisition
- Reach an initial paying-subscriber target
- Demonstrate recurring ACH payment volume
- Set up a larger seed round with measurable traction

SAFE terms available on request. Allocation percentages total 100%.
